# MY ISLAND HOME
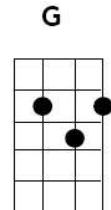

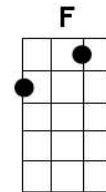

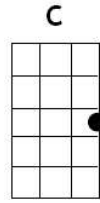

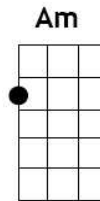

Written by Neil Murray

```
      C        F          C
Six years I've been in the city
        F            C
Every night I dream of the sea
          C  F            C
They say home is where you find it
      G   F          C
Will this place ever satisfy me
```

```
        C            F         C
For I come from the salt water people
          F          C
We always live by the sea
          C        F        C
Now I'm down here living in the city
        G  F         C
With my man and a family
```

**CHORUS:**
```
                Am              C
        My island home, my island home
                   G    F          C
        My island home, is waiting for me x 2
```

**BRIDGE**
```
            Am      G         C
        In the evening the dry wind blows
          C                   F
        From the hills and across the plains
          Am      G           C
        I close my eyes and I'm standing
            C             F
        In a boat on the sea again
              Am        G          C
        And I'm holding that long turtle spear
                    C                      F
        And I feel I'm close now to where it must be
                G  F          C
        My island home is waiting for me
```

```
        C            F         C
For I come from the salt water people
          F          C
We always live by the sea
          C        F        C
Now i'm down here living in the city
        G  F         C
With my man and a family
```

**CHORUS** (twice)
